

Paper Parade is a collection of paper toys designed by **Tiger Tea Illustration**. From flying birds and dragons to little towns and zoos you can construct, you simply print off, cut out, and stick together!

Colouring In

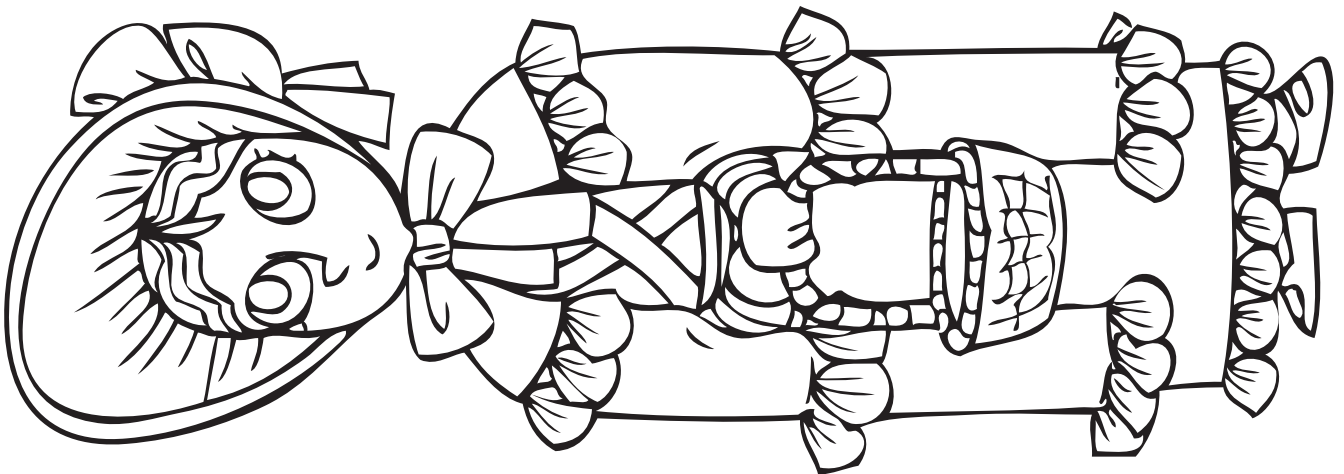

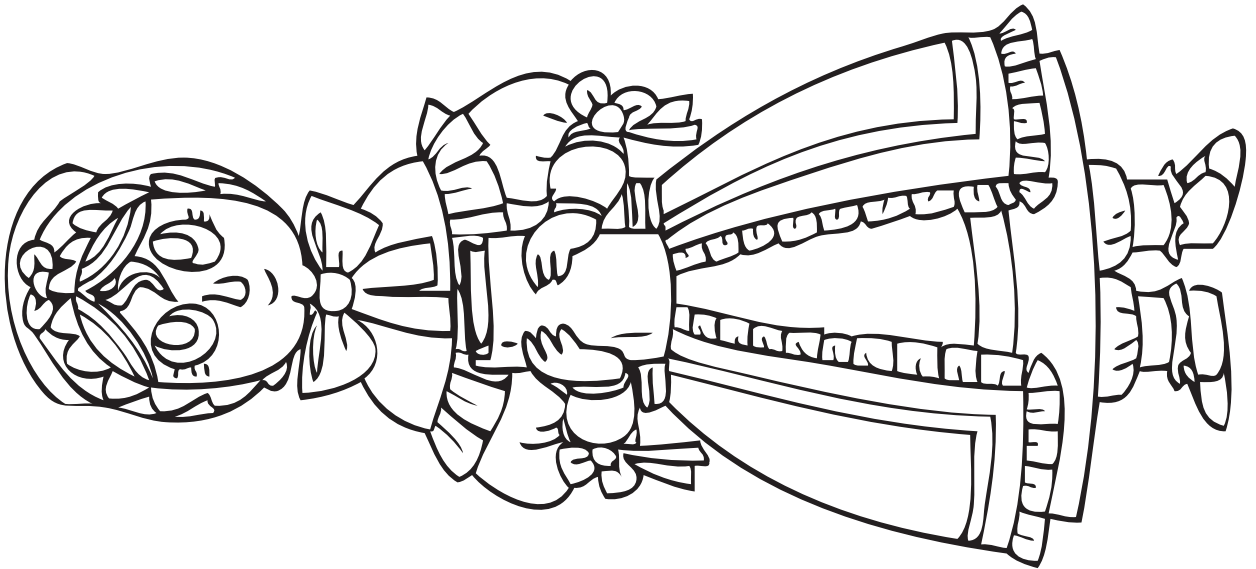

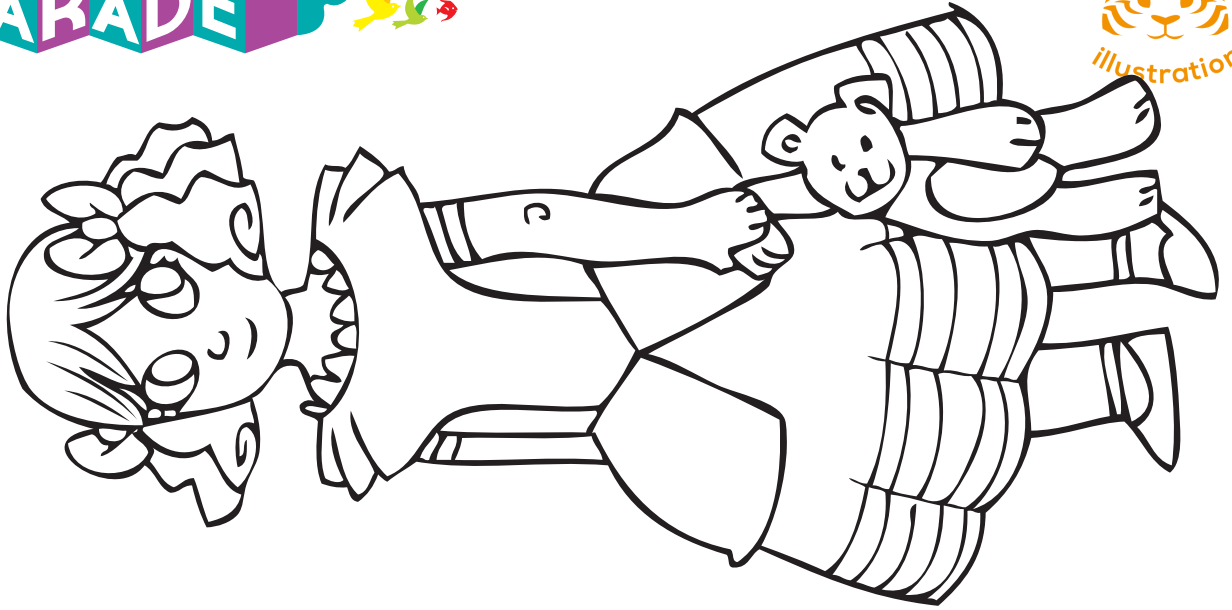

Colouring in can be a relaxing pursuit for kids and adults alike. The aim with my set of colouring in and activity sheets is to let people relax, have fun with something, learn a few things, and unleash any hidden creative talents. You won't find any bog standard 'puppies' or 'princesses' here.

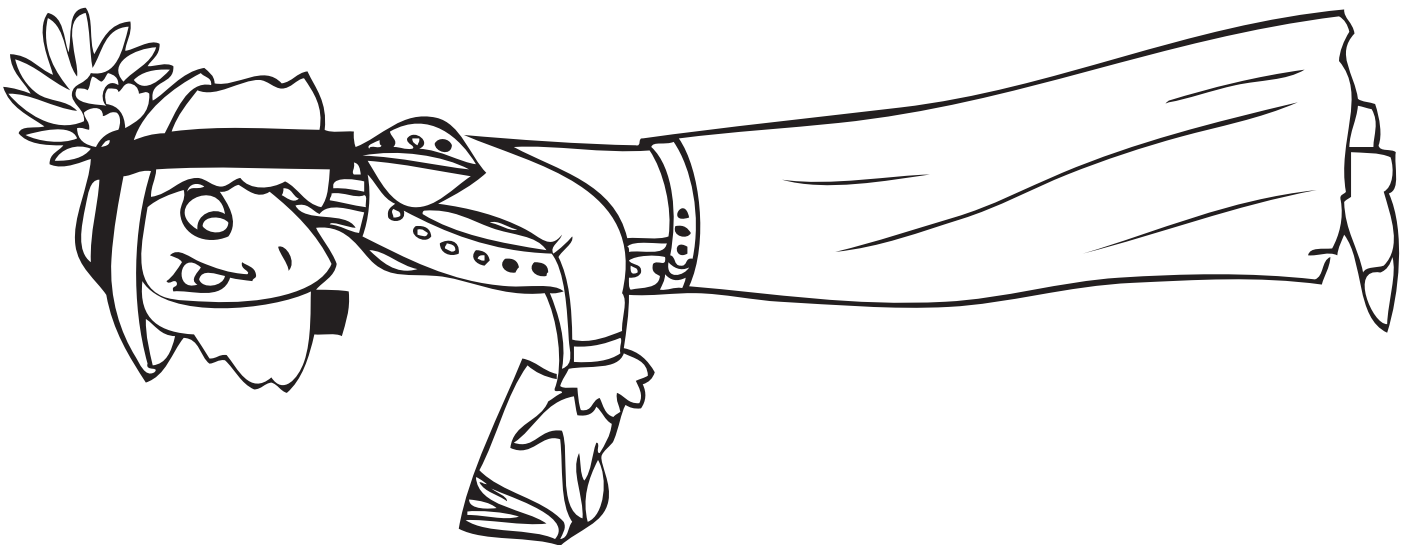

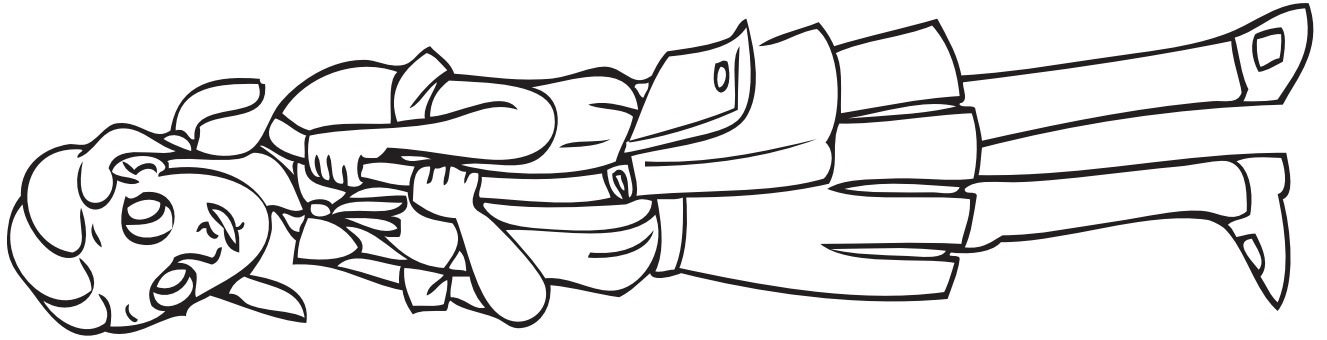

Print them out and use whatever you like - pencils, felt tips, crayons, even collage paper or pastel chalks! See what happens.

The collection is always undergoing improvements, so feedback is welcomed at colourme@tiger-tea.co.uk. I'm trying to develop a rating for the colouring in sheets so that no one ever feels overwhelmed or underchallenged.

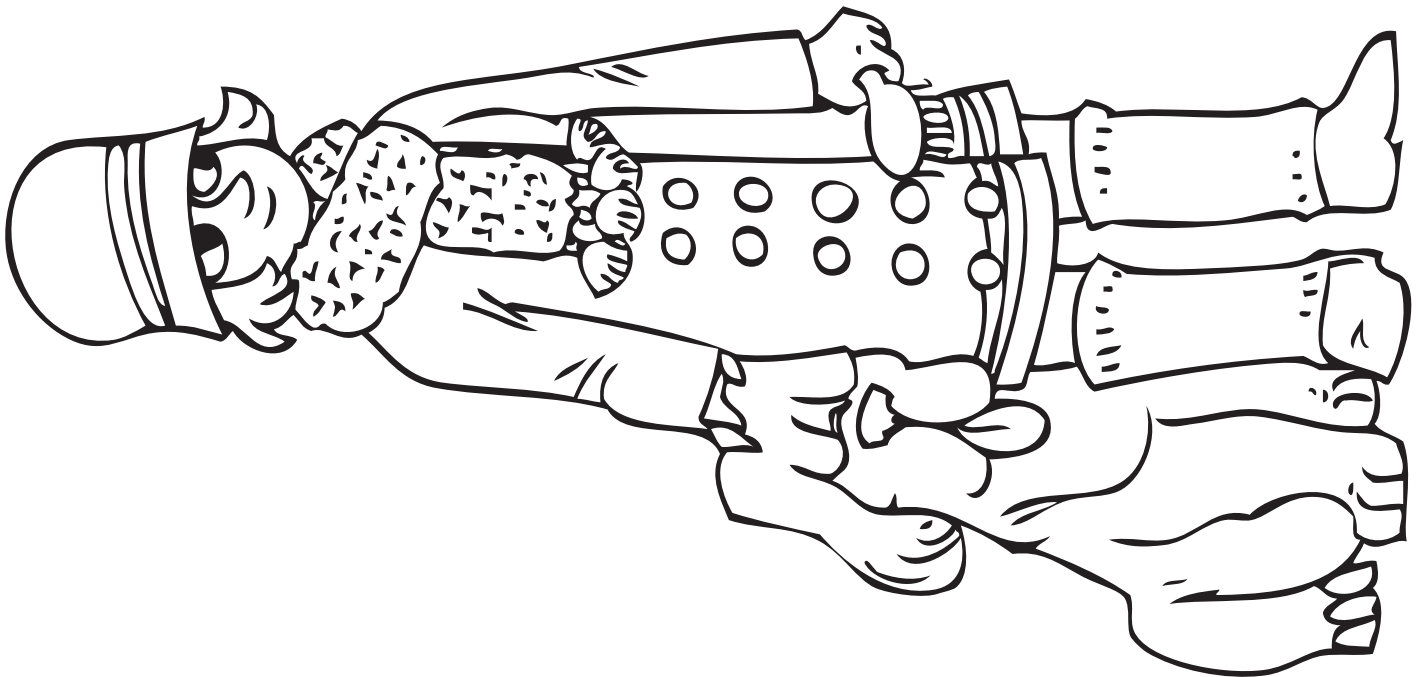

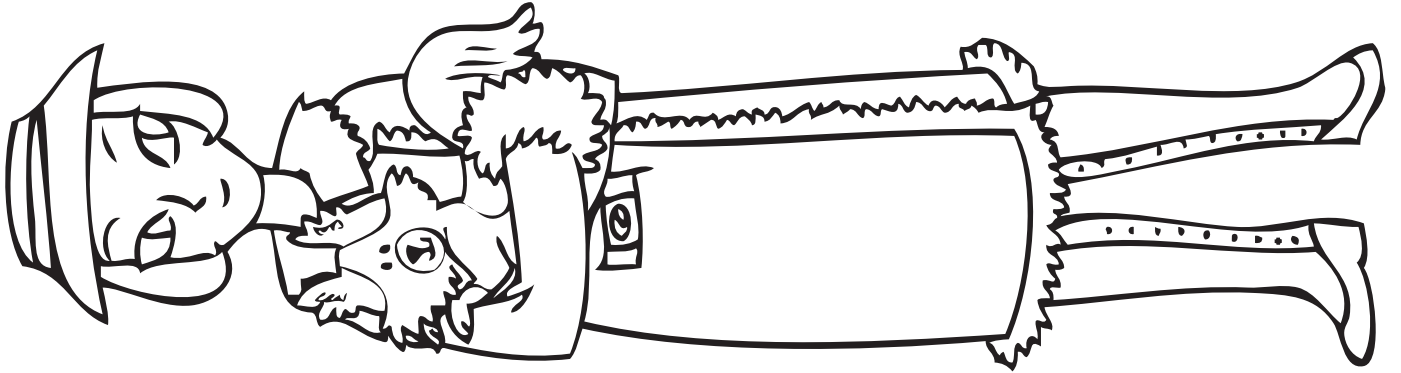

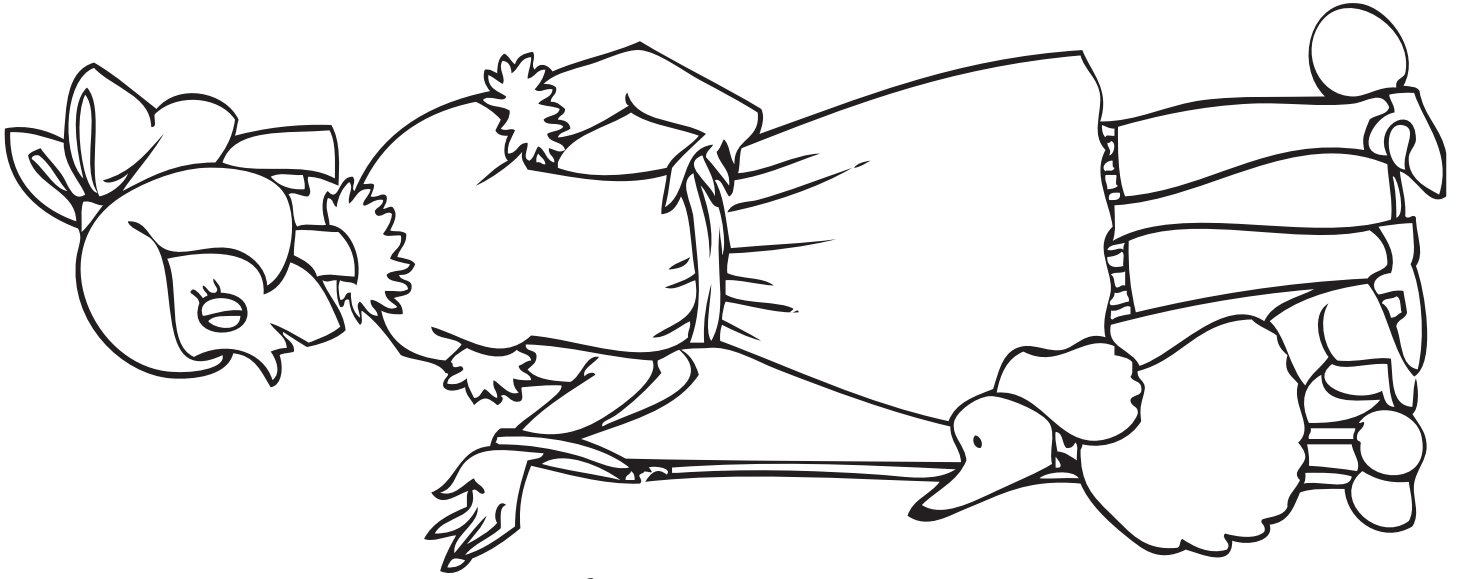

PLEASE NOTE: I am making these colouring/activity sheets freely available but you must not pass them off as your own work. If you wish to share them then please provide a link to my portfolio website or an appropriate credit. **Thank you.**
